REFERRAL LETTER

To:

Dr. Jane Doe
Department of Oncology
Central Medical Center
456 Care Avenue
Metropolis, XYZ 12345

Subject: Referral for Further Evaluation and Management

Dear Dr. Jane Doe,

I am writing to refer Ms. Emily Smith, a 35-year-old female, for further evaluation and management following abnormal findings from her recent Pap smear test.

Patient Details:

- Patient Name: Emily Smith
- Date of Birth: 15 March 1989
- Medical Record Number: 001234

Reason for Referral:

Ms. Smith's Pap smear results revealed Atypical Squamous Cells, Cannot Exclude High-Grade Lesion (ASC-H). Given these findings, further investigation is required to rule out high-grade lesions or other pathological conditions.

Relevant Medical Information:

- Findings: Suspicious squamous cells indicative of potential high-grade lesions.
- Tests Conducted: Pap smear and HPV DNA test (positive for high-risk HPV types).

- Symptoms Reported: Occasional post-coital bleeding and pelvic discomfort.
- Relevant History: No prior history of cervical dysplasia or other gynecological conditions.

Requested Action:

We kindly request that you perform the following:

1. A colposcopy and biopsy to evaluate the abnormal findings.
2. Provide a comprehensive assessment and recommendations for further management.

Attachments:

Enclosed with this letter are:

1. Pap smear and HPV test results.
2. Relevant medical history and examination notes.

We appreciate your expertise in this matter and kindly request updates on the findings and subsequent recommendations for Ms. Smith's care. Should you need additional information or clarification, please do not hesitate to contact me directly at (123) 456-7890 or via email at dr.john.doe@citygeneralhospital.com.

Thank you for your attention and collaboration in providing the best care for our patient.

Sincerely,

Dr. John Doe
